

# Electrical Project Manager

DHG is currently seeking two qualified electrical project managers, one for the Charleston, SC area and one for the Dayton, TN area. Qualified applicants must be self-motivated and willing to put in the effort to be successful. Qualifications include but are not limited to:

1. Minimum of 10 years industrial electrical experience.
2. Ability to manage multiple projects at the same time.
2. Ability to read and understand drawings, schematics, e-plans and specifications.
3. Knowledge of power, controls, automation and network systems 1000 volts and less.
4. Ability to meet new clients and secure new projects.
5. Ability to track projects and keep up with ordering materials, billing the customer and managing man power for each project.
6. Ability to understand project scope and customer needs.
7. Must be computer literate and understand the basics of Microsoft Office programs.
8. Must be able to do take-offs and estimate small to medium size projects.

We take pride in our work and expect the same from those who join our team.  
We offer competitive pay and benefits.
